MOSTAFA MOHAMED OSAMA

COMPUTER SCIENCE & ENGINEERING STUDENT

Cairo, Egypt | +20 106 707 3657 | mostafa12.official@gmail.com | Portfolio: mostafa-portfolio-one.vercel.app

SUMMARY

Computer Science and Engineering student at the German University in Cairo (GUC), expected to graduate in 2028, with hands-on experience in cloud technologies, front-end development, and software engineering projects. Completed internships at Orange Egypt and Omniful, gaining exposure to enterprise cloud infrastructure, networking concepts, collaborative development, and modern software workflows. Seeking a Summer Internship opportunity to further develop technical skills and contribute to impactful projects.

TECHNICAL SKILLS

Java, JavaScript, C	Git, GitHub	Front-End Development
HTML, CSS	AI-Assisted Dev Tools	Cloud Computing
React, Node.js	Object-Oriented Programming	Networking & OS

PROFESSIONAL EXPERIENCE

Front-End Development Intern, Omniful **India | August 2025**

Worked within the Front-End Development team to improve and maintain company web applications.
Contributed to enhancing the existing codebase and implementing front-end improvements.
Utilized Git and GitHub for version control, collaboration, and code review workflows.
Adapted quickly to an international work environment and collaborated effectively with diverse teams.

Cloud Intern, Orange Egypt **Egypt | July 2024**

Worked with the Cloud team and gained exposure to enterprise cloud infrastructure and services.
Developed a practical understanding of networking concepts and cloud-based architectures.
Learned industry workflows and best practices within a large-scale technology organization.
Collaborated with technical professionals and strengthened communication and teamwork skills.

EDUCATION

Bachelor of Science in CS and CE **Expected Graduation: 2028**

German University in Cairo (GUC)
GPA: 1.92 (German Scale)

ADDITIONAL INFORMATION

Languages: Arabic (Native), English (Fluent), German (Professional Working Proficiency).
Soft Skills: Communication, Teamwork, Leadership, Problem Solving, Adaptability, Time Management.
Projects: Jackaroo Game (Java), Portfolio Website (React), Operating System Simulator.
